

10 WAYS BIAW WORKS FOR YOU

1. **Enroll in BIAW's Return On Industrial Insurance Select program.** Members can receive a refund on L&I premiums paid, receive personalized claims assistance and a comprehensive safety program. Call Lara Hastings to enroll.
2. **Get BIAW health insurance.** Subscribers take advantage of premium discounts available through the region's foremost health insurers, including Regence Blue Shield and Asuris Northwest. Call Jenn Wright to get a quote form.
3. **Make sure you're paying the lowest possible workers' comp premium.** Kris Johnson can tell you if your employee and business classifications are correctly assigned to make sure you're not paying L&I too much and how to get a refund if you did.
4. **Get Questions Answered on the new Building Code changes.** BIAW's team of experts regularly helps members with difficult code questions and transition to Washington's new energy code.
5. **Revise your contract.** BIAW regularly offers courses on construction contracts through your BIAW's 16 associations. Bring your contract and Instructor Larry Linville will review it for changes that will protect your business. Contact Amanda Fields for the next class near you.
6. **Prevent costly L&I audits.** Schedule an appointment with Frank Romero to review your time records and risk classification so they pass L & I muster. Frank has saved BIAW members thousands of dollars by preventing audits and assisting with audits when they happen.
7. **Update your safety program.** Donovan Quebedeaux travels across the state to provide no-cost on-site safety & health consultations. Donovan also reports any updates or rule changes as they apply to DOSH, and provides basic loss control guidance to the employer. Donovan is also authorized by federal OSHA to teach the OSHA 10 Hour Construction Safety course and certified to instruct the NAHB's OSHA Big Four Construction Safety Hazards class. Contact Donovan for your free safety & health program evaluation.
8. **Reinvent your business.** BIAW's Green Build and Certified Aging-In-Place classes are wildly popular and help builders respond to market and consumer demands. Call Amanda Fields for a list of classes or view the schedule of classes at www.BIAW.com.
9. **Up-to-date classes and certifications.** If your project disturbs over an acre of land or is in a subdivision you are required to obtain your Certified Erosion and Sediment Control Lead (CESCL) certification. BIAW not only offers the certification class but also the re-certification class. Check out BIAW's website at www.BIAW.com for the latest schedule or contact Amanda Fields.
10. **Join the New Home Council.** Dedicated to helping builders sell homes, the NHC has a diverse membership of experts in building, selling, and marketing homes. You can utilize NHC resources, attend events, and network by joining the NHC, which is free for a limited time. Call Jan Rohila or go to www.thenewhomecouncil.com.
