County			City		State	Zip + 4	
Provide legal description if no address for site (attach separate sheet if necessary).							
Disturbed Acres: _____				Name of receiving waters: _____			

V. CONSTRUCTION ACTIVITY-Termination

The site is eligible for termination by one or both of the following methods: Check all that apply:

The site has undergone final stabilization. The operator has: permanently stabilized all exposed soils, removed all temporary BMPs, and eliminated all stormwater discharges associated with construction activity.

All portions of the site, which have not undergone final stabilization (Permit Condition S10.A.1) have been sold and/or transferred (Permit Condition G9), and the Permittee no longer has operational control of the construction activity.

VI. CERTIFICATION OF PERMITTEE(S). Please read the certification statement carefully before signing.

"I certify under penalty of law that all stormwater discharges associated with construction activity from the identified site that are authorized by the National Pollution Discharge Elimination System (NPDES) and State Waste Discharge general permit have been eliminated, or that I am no longer the permittee for this site. I understand that by submitting this Notice of Termination that I am no longer authorized to discharge stormwater associated with construction activity by the general permit, and that discharging pollutants in stormwater to waters of the State of Washington is unlawful under the Clean Water Act where the discharge is not authorized by a NPDES permit. I also understand that the submittal of this Notice of Termination does not release the permittee from liability for any violations of this permit or the Clean Water Act."

Instructions for Notice of Termination Form

The permittee of the site must submit a Notice of Termination to the Department of Ecology: when (1) all stormwater discharges from a construction site are eliminated and the site has undergone final stabilization, or (2) the site has been transferred to a different operator(s). The permit fees will continue until Ecology receives this notice.

1. **Permit Number** Enter the permit number for the facility.
2. **Operator (Section I)** Give the name, address, and telephone number of the person who is responsible for the permit.
3. **Owner (Section II)** Give the name, and the address of the person, company, firm, public corporation, municipality or any other entity, which owns or legally represents the site.
4. **Site Address (Section III)** Enter the street address or location description, including the city or nearest city and county for the construction site. Construction sites which do not have a street address must also provide a legal description in the space provided or as an attachment.
5. **Billing Address (Section IV)** Indicate where the final fee invoice should be sent.
6. **Acreage** Provide number of disturbed acres in the project.
7. **Construction Activity (Section V)** Indicate that all stormwater discharges associated with construction activity are eliminated, and final stabilization of all exposed soils is completed. Or, indicate that the permit has been transferred to another responsible party(ies) for management and provide the information required on the Transfer of Coverage form.
8. **Receiving Waters** Provide named and unnamed receiving waters (including wetlands and storm drains).
9. **Certification of Permittee(s) (Section VI)** Read this statement carefully. The operator or authorized representative of the operator must print his or her name for clarity, then sign and date the document on the lines provided. Refer to General Condition G2 in the permit for signatory requirements.

Submit the Notice of Termination to:

Department of Ecology
Stormwater Unit – Construction
PO Box 47696
Olympia, WA 98504-7696

Note: Confirmation of termination requests will be sent 30 days from date of receipt.
