

Health Insurance Tip of the Month

Did you know...?

You can save hundreds of dollars on your health care expenses by choosing generic drugs over the more expensive brand names? One of the simplest ways to save on your medical expenses is to ask your physician, or even your pharmacist, if there is a generic alternative for any prescription drug you are taking. The FDA requires that all generic drugs have the same active ingredients as the more expensive brand name drug. The only difference between the generic version and the brand name may be the shape and color, but more importantly the cost to you.
