

SAFETY HAS ITS REWARDS

“The ROII Program is outstanding. I can’t imagine not having it for our business! Our business runs more smoothly, efficiently, and safely. Their knowledge helps us keep our employees safe, and our company saves money on the financial incentive program they have! It is a win-win program for all!”

BELONG TO THE WORKERS’ COMP SAFETY PROGRAM TRUSTED BY MORE WASHINGTON BUSINESSES

Want to be rewarded for safety in your workplace? Join the crowd—by joining the state’s largest, longest-operating Retro (Retrospective Rating) safety incentive program: ROII. Participants rely on ROII for tools, programs and claims assistance they need to keep their businesses running smoothly.

Our goal here at ROII is simple: eliminate injuries through improvements in workplace safety and preventative strategies. If an employee is injured, we’ll help you help them get better quicker with a successful return-to-work experience. Businesses that participate and share our goal can earn a refund.

The Building Industry Association of Washington is the state’s largest trade association representing thousands of companies in the home building industry.

“When it comes to safety and prevention, the field reps at ROII know their stuff. With their help, we were able to decrease our claims by over half after implementing a stretch program on the jobsite and after long drives. The visit didn’t cost me a thing, but because of this small change, we will be receiving our highest return this plan year.”

ADVOCACY POWERFUL ENOUGH TO PUT AN ENTIRE INDUSTRY BACK TO WORK

ROI is BIAW's (Building Industry Association of Washington) Retro program, the association that advocated for our industry's essential workforce status in the early days of the pandemic and continues to advocate for the home building industry today.

Along with these top-tier refunds, ROI offers unequalled outcome-based claims assistance, safety and prevention services, risk management services and return-to-work assistance. And all of our services are provided in-house, with no hidden fees (unlike some Retro programs that use additional fees to chip away at your bottom line—while adding to theirs.)

RISK MANAGEMENT:

Our job is to identify risk and assist you with implementing preventative measures to avoid claims from happening. If a claim does occur, we offer strategies to help control the severity and cost of the injury.

RETURN-TO-WORK:

Our goal is to keep an injured worker engaged in the recovery process and connected with their employer to help ensure better outcomes. Each claim is unique, as is our customized return-to-work strategy approach.

“We had a difficult L&I claim that started right in the middle of COVID. It’s been years since our last big claim, so we didn’t know what we needed to do. Our ROII claims rep was simply amazing. We are a small company without a full-time HR person, and our claims rep guided us every step of the way. I was so relieved that she was on our team, helping us through uncharted and unfamiliar water.”
